Dear Parents:

June, 2017

Wishing Well Preschool will again be offering FIVE exciting programs starting this fall. These programs will be offered to children who are currently enrolled in a 4's program two or three days a week for an additional fee. These classes are on **TUESDAY AM/PM**, for two and one half hours, are extra-curricular and are an extension to your child's current class curriculum (these programs are included with the 4 day 4's program). These 5 programs further prepare your child to take the next step into kindergarten.

"READING, RHYTHM, & READINESS" will begin the series of extracurricular classes being offer at Wishing Well. This 5 Week Program incorporates the fun of music and movement while focusing on listening and strengthening fine motor skills. These important tools will help your preschooler enjoy every aspect of their preschool experience. This preparatory course will concentrate on developing the necessary dexterity to hold a pencil/crayon/marker correctly, cut with scissors, and color with confidence. It will also strengthen reading and listening skills through music and dramatic play. This mix of exciting activities will bring out the creativity of your child!

"EXPLORING WEATHER and NATURE" is a science-based play program. Children will get to explore the elements of weather and see firsthand how the Wind, Sun and Rain affects our world. They will follow their shadows, go on a bug hunt, explore the water cycle and even plant a seed to watch grow. This will be a wonderful opportunity for us to take your child on a science adventure the fun way!

"DISCOVERY PLAY" is a science-based play program. Children will experience the Scientific Method through hands on age appropriate science experiments. While they are doing this, they will learn about the world we live in, play with magnets to experience forces and changes; discover why a boat floats and much more. Introducing science skills at an early age is a wonderful way to boost thinking ability and help children make sense of their world.

"COUNTING ON MATH" will allow your child to explore math through real situations and playful activities that encourage counting, measuring, patterning and mathematical problem solving. Give your child the opportunity to learn the value of money and then go shopping at our "Wishing Well Classroom Store", use a scale and graph their favorite things to learn about math!

"STEPPING INTO READING" is a reading program designed to show children that they can experience an adventure each time they open a book. A central goal during the preschool years is to expose children to books and their print. This program is designed using a whole language approach. We will present reading concepts through patterning books and Mother Goose Rhymes. Through the program, we will introduce your child to "popcorn" words and word families. At the end of the 6 weeks, your child will come home with their very own mini books.

We offer a 10% discount if you register for all 5 classes at once.	Reading, Rhythm, & Readiness	Exploring Nature	Discovery Play	Counting on Math	Stepping into Reading
Cost	\$100.00	\$100.00	\$100.00	\$100.00	\$100.00
# of weeks	6 weeks	6 weeks	6 weeks	6 weeks	6 weeks
First day of class	9-19-17	10-31-17	12-12-17	2-06-18	4-3-18 wws /3-27-18 www
Last day of class	10-24-17	12-05-17	1-30-18	3-20-18	5-8-18

More information, samples of projects and enrollment forms will be available at a special table on Orientation Day in August. We hope you will take the time and consider enrolling your child in these extra-curricular classes. Your child will have the opportunity to learn in different ways while having fun.

Thank You,

Johanne
